

Analysis of students' feedback and Satisfactory Survey

A questionnaire has been designed covering all the segments of the college into five broad categories like, Teaching and learning, Administrative & office, Library, Extra-curricular activities and overall matters to collect the Students' feedback on the above mentioned fields of their respective Departments as well as College. This was supplied to individual outgoing third year (Honours) students to have their views as well as experience gathered by them during the period of their study in this Institution. The students of different Departments have given their response to the questionnaire supplied to them.

A criterion is set to evaluate their response. Score below 60% is taken as lower boundary for which proper actions are to be taken and score above 80% is considered as satisfactory level. In between 60% to 80% is treated as desirable level.

In the area of Extra-Curricular Activities, the average score is 40% which indicates the overall poor performance of the Students in this field. Much more attention is to be given in this field by encouraging the students to participate in different programmes organised/arranged by College and University.

In the field of teaching learning system, the average score is 83% which is very close to the norm of satisfactory level. It may be improved by employing constant monitoring on Students' attendance. Increase in students' attendance will be helpful to cover syllabus to a great extent, to take remedial measures and to develop teacher-student relationship.

In case of College Administration and Office, the average score is 74% which is at desirable level. To have better results initiative is to be taken to provide the sufficient basic requirements like, facilities for drinking water, cheap canteen, and Hostel arrangements at lower cost and hassle free official support as per their needs.

Students' assessment regarding library is satisfactory. Average score at this criterion is 87%. More student friendly atmosphere in library is to be maintained at each and every point of time.

Students' attitude on overall matters of the College is satisfactory.
