7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

- The undergraduate courses (Honours & General) offered by each department aim to bring its concentrators to a point where they can understand and evaluate what is occurring in the world around them and at the same time plan their future.
- Most of the departments are old enough and have witnessed many ups and downs over the years, thereby gaining strength and gathering some weaknesses as well, in the process. Quite a considerable percentage of the students who have crossed the UG level from these departments, have moved on to join PG courses at various universities. Some of them have further progressed to join M. Phil. and Ph. D Programmes. Most of the students who have graduated from these departments since the inception of the college have been well placed in various occupations.
- A harmonious environment, close family like interaction that is stimulating for teachers and students, prevail in all the departments. The teaching faculty truly enjoys talking with and working with the undergraduates. Students are welcome during college hours, after classes are over and even at home on holidays. They can seek advice and counsel on issues ranging from programmes of study, career plans, study habits and on personal problems. The teachers also gladly help the students in preparing for various professional examinations by providing guidance and books from their personal collections, sometimes even by borrowing from the library.
- Perhaps the most important resource to the students of any department is the wealth of experience, enterprise and creativity of the teachers concerned. Our college can boast of its sincere, capable and motivated teachers who constantly try to monitor their students and motivate them to develop eagerness to orient themselves towards overall betterment.
- A tendency to avoid attending classes has developed among many students of late. Irregular attendance in the class by some students seriously hinders the continuity of lessons.

8. Plans of institution for next year

- To organize National and International Seminars
- To motivate the teachers to undertake Major and Minor Research Projects more and more.
- To upgrade the mode of teaching more and more with the help of ICT.
- To award the students who will stand first, second and third in the students seminar.
- To renovate and upgrade the existing Medicinal Plants Garden.
- To arrange for the awareness of Health and Hygiene in collaboration with the Bio-Science Departments and NSS.
- To make the College Campus A Green Zone.
