

PROCEEDINGS

National Level Seminar on
Characterization of Nanomaterials

September 22-23, 2016

Editors : Dr. Baibaswata Bhattacharjee & Prof. Anjan Kumar Bandyopadhyay

Sponsored by :

University Grants Commission

Organized by :

Department of Physics

Ramananda College

Bishnupur, Bankura, Pin - 722122, West Bengal

In collaboration with

Department of Physics

The University of Burdwan, West Bengal

Published by :

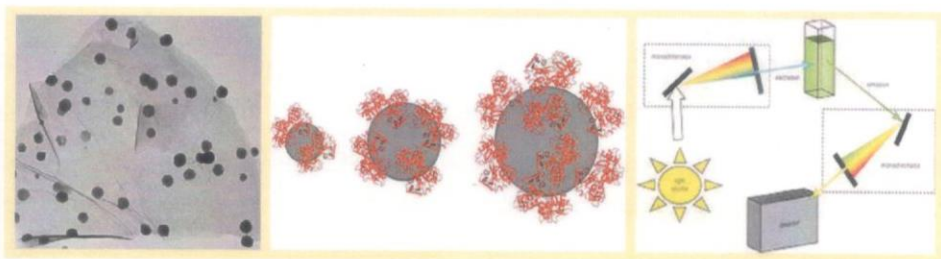

Ramananda College, Bishnupur, Bankura

ISBN : 978-81-933848-0-0

*National Level Seminar on
Characterization of Nanomaterials*

22-23 September, 2016

Organised by

**Department of Physics
Ramananda College
Bishnupur, Bankura, Pin - 722122, West Bengal
In collaboration with
Department of Physics
The University of Burdwan, West Bengal**

Sponsored by

University Grants Commission

***National Level Seminar on
Characterization of Nanomaterials***

22-23 September, 2016

**Ramananda College,
Bishnupur, Bankura, West Bengal, India**

Proceeding Committee

Dr. Debanka Sekhar Mishra
Dr. Anjan Banerjee
Dr. Baibaswata Bhattacharjee
Dr. Subhasis Chattopadhyay
Dr. Banashree Ghosh

Editors

Dr. Baibaswata Bhattacharjee & Prof. Anjan Kr. Bandyopadhyay

CONTENTS

1. **Observation of Room Temperature Ferromagnetism and Improved Photocatalytic Performance of Gd : ZnO Nanorods** Page 1
2. *Sanchayita Nag, Dipankar Das, Mrinal Seal, Sampad Mukherjee*
Spectroscopic Studies on Low Dimensional Systems Page 8
Achintya Singha
3. **Green Synthesis of Metal Nanoparticles and Application in Water Treatment Technology** Page 22
Sujoy K Das
4. **MoS₂ Thin Film Grown By Pulsed Laser Deposition** Page 35
Arun Barvat, Anjana Dogra, Prabir Pal
5. **Quenching of Protein Depends upon the Shape of the ZnO Nanocrystals** Page 42
A. K. Bhunia, T. Kamilya, S. Saha
6. **Effect of Reducing Agent in the Formation of ZnS Nanoparticle** Page 49
Kamal Bera, Satyajit Saha, Swadesh Ranjan Bera & Paresh Chandra Jana
7. **Echo-friendly Synthesis and Characterization of ZnS Nanocompounds via Complex Decomposition Approach** Page 56
Nilkamal Maiti and M N Goswami
8. **Change of chemically grown nanostructures of CdTe with growth time** Page 64
Swades Ranjan Bera, Satyajit Saha, Kamal Bera
9. **Anomalous Decrease of r.m.s. Strain With Increasing Mechanical Deformation Time in Conversion of Anatage TiO₂ Phase to High Pressure TiO₂-II Phase in High Energy Ball Mill** Page 71
Punarbasa Bose

10. **ZnS nanoparticle induced hypoxia affects the liver characteristics and haematological parameters of a non-air breathing catfish *Mystus vittatus* (Bloch, 1794)** Page 81
Nilanjana Chatterjee and Baibaswata Bhattacharjee
11. **Solution based growth of vertically aligned ZnO nanowire thin films: synthesis and characterization** Page 99
S.R. Bhattacharyya, S. Dalui, T. Parichha and R. Gayen
12. **Hysteresis in Carbon Nanotube Field-Effect Transistors** Page 108
M. Pal Chowdhury
13. **Synthesis and Characterizations of Nanocrystalline CZTS Thin Films** Page 117
R.N. Gayen, P.Mandal, P. Sharma and S.R. Bhattacharyya
14. **Synthesis of nano-sized ZnFe₂O₄ spinel from a single source metal-organic precursor and its application for explosive sensing** Page 122
Partha Mahata
15. **Size selected nanocluster deposition: a paradigm shift in thin film deposition** Page 132
Shyamal Mondal and S. R. Bhattacharyya
16. **Comparison of Structural and Microstructural Changes of Nanocrystalline Fe₃C and SiC metal Carbides During Ball Milling** Page 138
B. Ghosh
17. **Graphene Based Optical Sensing of Cholesterol** Page 152
Avijit Mondal
18. **Study of hyperfine behaviour and microwave absorption properties of Ni_{0.4}Zn_{0.4}Co_{0.2}Fe₂O₄ and Ni_{0.3}Zn_{0.4}Co_{0.3}Fe₂O₄ encapsulated in carbon nanotubes** Page 158
Madhumita Dalal, Ayan Mallick, Anushree Das, Dipankar Das and Pabitra K. Chakrabarti
19. **Nanotechnology : A present opportunistic tool with potential future benefits** Page 163
Rajendra Narayan Mitra, Goutam Biswas
